Advice to Contributors

The editorial panel welcomes contributions in the form of original articles, letters, reports and reviews. AEC provides a vehicle for the publication of articles for which a national audience is appropriate. These fall into a number of categories. There are articles relating to research in the educational computing field and which are likely to be of interest to a wide cross-section of teachers. These may come as follow-up papers from keynote speakers at national conferences, or might be the results of Australian or international research. In addition there are a number of educators who are exploring new ideas about the use of computers in the classroom and who are writing articles of national interest. The journal may contain reprinted articles from sister international organisations such as ISTE and ifip; however the majority of articles should be Australian.

• Refereed/Reviewed papers can be articles relating to research, theoretical articles, position or opinion papers. Please submit a 200-word executive summary of your paper. The summary should clearly indicate your contribution to the field and your paper's stance on any significant issues. Each summary will be independently refereed by at least two members of the Editorial Board.
• Non Refereed/Reviewed papers can be papers relating to practice or policy
• Authors should ensure that their manuscript conforms loosely to the American Psychological Association (APA) bibliographic convention.
• Apart from the title page no author identification should appear on the manuscript.
• Figures, tables and graphics should be provided in camera-ready form.
• Photographs should be black and white rather than colour.
• Authors should include an abstract of 100-150 words.
• Include an abstract of 100-150 words.
• Electronic copy in the form of a plain (unformatted) text file, or in PDF form. If you use word processing software, the file should be submitted as a .doc, .rtf, .txt or .pdf file. It is strongly recommended that you do not include any formatting in your document. papers contributed for the Refereed/Reviewed sections will be anonymously refereed by at least two members of the Editorial Board. All submitted material will pass through an editorial phase to maintain journal standards and balanced coverage. All articles accepted may be published in both print and electronic forms. All material is copyright; otherwise stated in writing, may not be reproduced in any form without the permission of the editor. Opinions expressed by contributors do not necessarily reflect the views of the editorial panel or the Australian Council for Computers in Education. The Australian Council for Computers in Education does not endorse products or services advertised in this journal.
