Australian Educational Computing is the refereed journal of the Australian Council for Computers in Education (ACCE) and is published twice a year. Members of affiliated state computer education groups receive the journal. Other residents of Australia who wish to receive Australian Educational Computing should join the appropriate state computer education group as listed below. The subscription rate per annum is AUD$70 for subscribers. Cheques should be made payable to Australian Educational Computing.

All subscriptions and all administrative and distribution queries should be directed to:

**Advice to Contributors**
The editorial panel welcomes contributions in the form of original articles, letters, reports and reviews. AEC provides a vehicle for the publication of articles for which a national audience is appropriate. These fall into a number of categories. There are articles relating to research in the educational computing field and which are likely to be of interest to a wide cross-section of teachers. These may come as follow-up papers from keynote speakers at national conferences, or might be the results of Australian or international research. In addition there are a number of educators who are exploring new ideas about the use of computers in the classroom and who are writing articles of national interest. The journal may reprint articles from similar international organisations such as ISTE and IEP, however the majority of articles should be Australian content.

- Refereed/Reviewed papers can be articles relating to research, theoretical articles, position or policy papers.
- Non-Reviewed/Reviewed papers can be papers relating to practice or policy.
- Authors should ensure that their manuscript conforms loosely to the American Psychological Association (APA) bibliographic convention.
- Apart from the title page no author identification should appear on the manuscript.
- Figures, tables and graphs should be provided in camera-ready form.
- Photographs should be black and white rather than coloured.
- Authors should limit articles to a maximum of 4000 words.
- Include an abstract of 150-300 words.
- Electronic copy in the form of a plain (unformatted) text file, Microsoft word file, should be submitted via e-mail to the editor.
- Authors should include a brief biographical statement (include at end of article; before references section) and a current photograph.
- Digital photographs of authors should be standard size of around 140mm x 100mm and 300 dpi in resolution. When saved as a jpeg they should be about 400KB in memory, file sizes less than 100KB, and jpeg and gif files are not acceptable. Send photos separately, do not embed in word doc.

Papers contributed for the Refereed/Reviewed sections will be anonymously refereed by at least two members of the Editorial Board. All submitted material will pass through an editorial phase to maintain journal standards and balanced coverage. All articles accepted may be published in both print and electronic forms. All material is copyright, unless otherwise stated in writing, and may not be reproduced in any form without the permission of the editor. Opinions expressed by contributors do not necessarily represent the views of the editorial panel or the Australian Council for Computers in Education. The Australian Council for Computers in Education does not endorse products or services advertised in this journal.

**Deadlines**
31st March, 2011 for Vol 26, No 1
31st August, 2011 for Vol 26, No 2

**CONTENTS**

**Editorial**

**CONTRIBUTED PAPERS (REVIEWED)**

Using ICT to increase professional connectedness for teachers in remote Australia
**Chris Reading**, SIMERR National Centre, University of New England, NSW

Do rural and regional students in Queensland experience an ICT “turn-off” in the early high school years?
**Lyn Courtney and Neil Anderson**, James Cook University, Queensland

Supporting ICT based pedagogies in science in rural school settings
**Peter Hubber**, Gold Chittleborough, Coral Campbell, Wendy Jobling and Russell Tytler, Deakin University, Victoria

Getting There: Teacher experiences in applying ICT in rural and remote education
**Greg Shaw** – Charles Darwin University Northern Territory

Connecting and collaborating in regional, rural and remote Western Australia
**Sue Trinidad and Tanja Broadley**, Curtin University, Western Australia

Using ICT to enhance curriculum opportunities for students in rural and remote schools
**Bruce White**, University of South Australia

**CONTRIBUTED PAPERS (NON - REVIEWED)**

Enhancing Student Learning with Interactive Whiteboards: Perspective of Teachers and Students
**Sue Gregory**, University of New England NSW

**Editorial Board**
