Advice to contributors
The editorial panel welcomes contributions in the form of original articles, letters, reports and reviews. Authors should ensure that their manuscript conforms to the American Psychological Association (APA) bibliographic convention. (Note that while this issue uses the Harvard style, future issues will conform to APA).

All manuscripts should be clearly printed, double-spaced on one side of numbered pages. Apart from the title page no author identification should appear on the manuscript. Figures, tables and graphics should be provided in camera-ready form.

Photographs should be black and white rather than coloured. Authors should limit articles to a maximum of 4000 words and include an abstract of 100–150 words. Electronic copy in the form of a plain (unformatted) text file (on a Mac or IBM disk, or via e-mail), should be submitted with the paper copy.

Authors should include a brief autobiographical statement and a passport sized photograph. All material is copyright unless otherwise stated in writing and may not be reproduced in any form without the permission of the authors. Permission will normally be granted where material is to be used for non-profit educational purposes.

Opinions expressed by contributors do not necessarily represent the views of the editorial panel or the Australian Council for Computers in Education. The Australian Council for Computers in Education does not endorse products or services advertised in this journal.

Deadlines
Friday 18 March for vol. 9 no. 1 (May 1994)
Friday 15 July for vol. 9 no. 2 (September 1994)

Electronic version
The text files for this issue will be available through Internet by anonymous FTP transfer at the location ftp.qut.edu.au in the directory papers/secv/ vol9no2.
